

**We don't just point you
in the right direction.**

>> We get you there, too.

Faced with a wide variety of directional control, hole quality and NPT challenges, drillers are looking for better solutions. The Pilot fleet of automated drilling systems from Sperry Drilling services* gives you the right solution no matter where the quest for hydrocarbons takes you. And these systems do it by delivering unequalled speed, precise wellbore placement, unparalleled reliability and excellent hole quality under all conditions.

To learn more about how we are setting direction with the Pilot fleet, check out our **Geo-Pilot®**, **Geo-Pilot® XL**, **Geo-Pilot® GXT**, **EZ-Pilot®** and **V-Pilot®** systems at www.halliburton.com/pilot.

*The Geo-Pilot® rotary steerable system is a joint collaboration between Sperry and JOGMEC (Japan Oil, Gas and Metals National Corporation).
