

# Performance drilling with a motor-based solution?

## Sweet.

**Reduce drilling days with the Performance Drilling technology suite: a new level of power, control and hole quality that increases ROP and reliability.**

Featuring the rugged and powerful GeoForce® high-output motor, industry-only 3D-i™ real-time drilling optimization software, and innovative FullDrift®

drilling suite concept,

**Performance Drilling**

from Sperry Drilling

services delivers it all—

including higher ROP, reduced rig time and superior hole quality.
