

ConExplo 2018

5-9 November > Mendoza > Booth 20-24 Visualization Room

Wednesday, 7 November

- 9:00** Expanding the Boundaries of Electrical Submersible Pumps
- 9:25** Increasing Efficiency: Next Steps for Halliburton Drill Bit Services
- 9:50** Profiling and Locating Pipeline and Wellbore Deposits with InnerVue™ Non-Intrusive Pressure Wave Analysis
- 10:45** Improve Stimulation and Completion Designs with Integrated Characterization of Unconventional Reservoirs
- 11:10** Finding the Sweetspot: ShaleXpertSM Petrophysical Workflow
- 11:35** Implementing Innovations in Unconventional Workflows Using DataSphere® Downhole Sensors
- 12:00** Smarter Completions for Bottom-Line Efficiencies
- 12:25** The RezConnect™ Well Testing System: Have a Dialogue with Your Reservoir
- 14:45** Increase Well Performance in Unconventional Reservoirs with the CALIBRSM Engineered Flowback Service
- 15:10** Distributed Temperature and Acoustics Sensing Application to Unconventional Fields
- 15:35** New Friction Reducers

Thursday, 8 November

- 9:00** Smart Design Meets Drilling Automation
- 9:50** Semi-Automated, Advanced Structural Interpretation Using Fault Likelihood Attribute
- 10:45** Stratigraphic Insights Into Resource Play Assessments: The Vaca Muerta Play, Neuquén Basin, Argentina
- 11:10** Seismic Analysis and Sweet Spots Discrimination of the Vaca Muerta Shale Reservoir
- 11:35** Formalizing Data Quality Management
- 12:00** Digital Transformation For E&P
- 12:25** PSDM Seismic Adjustment from Wellbore Depth Matching

HALLIBURTON

ConExplo 2018

5-9 November > Mendoza > Booth 20-24 Visualization Room

Friday, 9 November

- 9:00** Integrated Methodology for Unconventional Reservoirs Development
-
- 9:25** Exploration Insights Argentina Atlantic
-
- 9:50** Well Construction 4.0
-
- 10:45** Digital Technologies for Unconventional
-
- 11:10** CYPHERSM Seismic-to-Stimulation Service
-
- 11:35** Profiling and Locating Pipeline and Wellbore Deposits with InnerVueTM Non-Intrusive Pressure Wave Analysis
-
- 12:00** Finding the Sweetspot: ShaleXpertSM Petrophysical Workflow
-
- 12:25** New Friction Reducers
-
- 14:45** Distributed Temperature and Acoustics Sensing Application to Unconventional Fields
-
- 15:10** Expanding the Boundaries of Electrical Submersible Pumps
-
- 15:35** Integrated Diagnostic and Intervention Solutions with SPECTRUM[®] Services
-
