

SPE ATCE 2018

24–26 September > Dallas > Booth 2213

Monday, 24 September

- 09:30** Avoiding Risk with a Proven Solution for Optimized Pressure Control in Challenging Wells
-
- 10:00** Providing High-Resolution, Faster, and Combinable Magnetic Resonance Solutions with the New XMR™ Service
-
- 10:30** Illuminating Reservoir Boundaries More Than 200 Feet From the Wellbore with Innovative LWD Technology
-
- 11:00** Introducing the iCruise™ Intelligent Rotary Steerable System (RSS): Where Smart Design Meets Drilling Automation
-
- 11:30** Drill to Win!
iCruise™ Intelligent RSS Interactive Game
-
- 12:00** Optimizing Well and Fracture Placement for Maximum Production Performance
Boxed lunch will be served. Limited seating available.
-
- 01:00** Improving Efficiency, Maximizing Perforation Performance and Mitigating Risks at the Push of a Button with Prodigy™ AB Intelligent Fracturing Service
-
- 01:30** Unlocking Your Assets Full Potential with an Integrated Approach to Production Surveillance
-
- 02:00** Implementing Innovations in Unconventional Workflows Using Datasphere® Downhole Sensors
-
- 02:30** Enhancing Drilling Performance with Electronic Data Capture at the Bit
-
- 03:00** Drill to Win!
iCruise™ Intelligent RSS Interactive Game
-
- 03:30** Introducing the iCruise™ Intelligent RSS: Where Smart Design Meets Drilling Automation
-
- 04:00** Drill to Win!
iCruise™ Intelligent RSS Interactive Game
-
- 05:00** Increasing Production and Reducing Downtime with Smart ESP Technology
-

SPE ATCE 2018

24–26 September > Dallas > Booth 2213

Tuesday, 25 September

- 09:30** Implementing Innovations in Unconventional Workflows Using Datasphere® Downhole Sensors
- 10:00** Providing High-Resolution, Faster, and Combinable Magnetic Resonance Solutions with the New XMR™ Service
- 10:30** Improving Efficiency, Maximizing Perforation Performance, and Mitigating Risks at the Push of a Button with Prodigy™ AB Intelligent Fracturing Service
- 11:00** Introducing the iCruise™ Intelligent RSS: Where Smart Design Meets Drilling Automation
- 11:30** Drill to Win!
iCruise™ Intelligent RSS Interactive Game
- 12:00** Optimizing Well and Fracture Placement for Maximum Production Performance
Boxed lunch will be served. Limited seating available.
- 01:00** Enhancing Drilling Performance, with Electronic Data Capture at the Bit
- 01:30** Drill to Win!
iCruise™ Intelligent RSS Interactive Game
- 02:00** Introducing the iCruise™ Intelligent RSS: Where Smart Design Meets Drilling Automation

- 02:30** Drill to Win!
iCruise™ Intelligent RSS Interactive Game
- 03:00** Avoiding Risk with a Proven Solution for Optimized Pressure Control in Challenging Wells
- 03:45** Introducing the New XMR™ Service
Launch event and reception

Wednesday, 26 September

- 09:30** Illuminating Reservoir Boundaries More Than 200 Feet from the Wellbore with Innovative LWD Technology
- 10:00** Increasing Production and Reducing Downtime with Smart ESP Technology
- 10:30** Unlocking Your Assets Full Potential with an Integrated Approach to Production Surveillance
- 11:00** Implementing Innovations in Unconventional Workflows Using Datasphere® Downhole Sensors
