

IADC/SPE Asia 2018

27 – 29 August > Bangkok, Thailand > Booth B03

Monday, 27 August

- 10:00** Increasing Bit Footage While Maintaining Efficiency with Stega™ Advanced Cutter Placement
- 10:30** Maximizing Efficiency with the Quasar Trio® Triple Combo LWD Service
- 11:00** Increasing the Reliability and Efficiency of Offshore Lightweight Cementing
- 11:30** Providing Effective Acid Diverters for Natural Fractured Reservoirs
- 13:30** Mitigate Risks and Maintain Hang-weight Capabilities at Elevated Temperatures
- 14:00** Solving Lost Circulation Challenges with Engineered Composite Solutions
- 14:30** Enabling Continuous Circulation to Solve Drillpipe Connection Challenges
- 15:00** Increasing Bit Footage While Maintaining Efficiency with Stega™ Advanced Cutter Placement

Tuesday, 28 August

- 10:00** Transforming Well Construction and Delivery Through Digital Twins
- 10:30** Increasing Bit Footage While Maintaining Efficiency with Stega™ Advanced Cutter Placement
- 11:00** Solving Lost Circulation Challenges with Engineered Composite Solutions
- 11:30** Providing Effective Acid Diverters for Natural Fractured Reservoirs
- 13:30** Transforming Well Construction and Delivery Through Digital Twins
- 14:00** Maximizing Efficiency with the Quasar Trio® Triple Combo LWD Service
- 14:30** Increasing the Reliability and Efficiency of Offshore Lightweight Cementing
- 15:00** Mitigate Risks and Maintain Hang-weight Capabilities at Elevated Temperatures
