

# OTC Asia 2018

20–23 March > Kuala Lumpur, Malaysia > Booth F101

## Wednesday, 21 March

- 10:30** Achieving More Efficient Drilling with Geometrix™ 4D Shaped Cutters
- 11:00** Ensuring Fluid Containment and Diversion in Pressure-Critical Operations with Marine Sentry RCD 3000™
- 11:30** Reaching New Levels of Safety in Tubing-Conveyed Perforating Operations with the WiFire™ Acoustic Firing Head
- 12:00** Managing Pipeline Performance with PressurePulse™ Service: A Non-Intrusive Pipeline Diagnostic Service
- 13:30** Increasing Efficiency in Extreme High-Temperature Wells with Quasar Trio® Triple-Combo LWD Service
- 14:00** Combatting Lost Circulation with Engineered, Composite Solutions
- 14:30** Rapidly Responding to Mitigate the Effects of Subsea Source Control Incidents, Using the Global Rapid Intervention Package (GRIP<sup>SM</sup>)
- 15:00** Optimizing Pipe Surveillance and Intervention with One-Trip Diagnostics
- 15:30** Managing Pipeline Performance with PressurePulse™ Service: A Non-Intrusive Pipeline Diagnostic Service
- 16:00** Reducing Well Time with Source-less Porosity Evaluation, Using Acoustic and Magnetic Resonance LWD Technologies
- 16:30** Integrating Diagnostic and Intervention Capabilities with SPECTRUM<sup>SM</sup> FUSION Hybrid Coiled Tubing Service
- 17:00** Maximizing the Economic Life of the Well

## Thursday, 22 March

- 10:30** Optimizing Your Reservoir Through Advanced Completion Solutions
- 11:00** Increasing Efficiencies Through Integrated Geothermal Solutions
- 11:30** Increasing Efficiency in Extreme High-Temperature Wells with Quasar Trio® Triple-Combo LWD Service
- 12:00** Enabling Smarter, More Connected Oilfield Operations Through the Voice of the Oilfield™, an Open Enterprise Platform
- 13:30** Maximizing the Economic Life of the Well
- 14:00** Reaching New Levels of Safety in Tubing-Conveyed Perforating Operations with the WiFire™ Acoustic Firing Head
- 14:30** Optimizing Your Reservoir Through Advanced Completion Solutions
- 15:00** Rapidly Responding to Mitigate the Effects of Subsea Source Control Incidents, Using the Global Rapid Intervention Package (GRIP<sup>SM</sup>)
- 15:30** Solving Mature Field Production Challenges: Production Optimization Lessons Learned from China
- 16:00** Ensuring Fluid Containment and Diversion in Pressure-Critical Operations with Marine Sentry RCD 3000™
- 16:30** Integrating Diagnostic and Intervention Capabilities with SPECTRUM<sup>SM</sup> FUSION Hybrid Coiled Tubing Service
- 17:00** Optimizing Pipe Surveillance and Intervention with One-Trip Diagnostics
