BAROID RIG WASH™ is a cost effective surfactant solution used for surface cleaning applications.

**Applications / Functions**
- BAROID RIG WASH™ cleaner can be used to remove grease and oil-based compounds.

**Advantages**
- Cleans rig floors and equipment
- Degreases shop floors
- Disperses in petroleum-based fluids and solubilizes in water

**Typical Properties**
- **Appearance**: Clear red liquid
- **Flash point, >**: 210°F
- **Flash point, >**: 99°C
- **Specific gravity**: 1.01

**Recommended Treatment**
1. Apply full strength to remove thick deposits of oil and grease, varnish, floor wax, and to wash rig floor and equipment.
2. Use in 1:10 dilution with water for general purpose cleaning.
3. Use in 1:5 dilution with kerosene for solvent wash tanks and to clean mechanical parts.

Caution: The product can be slightly corrosive to mild steel and can damage painted surfaces with frequent or prolonged exposure.

**Packaging**
BAROID RIG WASH™ cleaner is packaged in 55-gal (208-l) drums.
