SwiftCem™ Cements
Designed to gain compressive strength rapidly

With Tuned Cementing Solutions™ cementing systems, Halliburton has created a set of innovative fit-for-purpose solutions with the flexibility required to allow each system to be tuned specifically for a given set of wellbore conditions. SwiftCem cements form one of these families of fit-for-purpose solutions.

With SwiftCem cement you receive a conventional cementing solution designed to gain compressive strength rapidly, once placed behind the casing.
