Bulk Equipment
(Silo and Compressor)

Mobile bulk silos are used for storing larger amounts of dry materials, neat cement or cement blends on location prior to job execution. In order to move the dry material, a compressor is also needed.

Dimensions Silo
- Height: 8 m
- Diameter: 2.5 m
- Weight: 7 tons

Technical features
- Silo:
  - Storage of up to 36 m³ dry material
  - Working pressure 2 bar
  - Test pressure 5.6 bar
  - New build (2010)

Dimensions Compressor
- Length: 4.72 m
- Height: 1.59 m
- Width: 1.86 m
- Weight: 1.87 tons

Technical features
- Compressor:
  - Drivable
  - Can pump up to 11 m³/min of air
  - Working pressure 2 bar, maximum pressure 2.5 bar
  - Soundproofed
  - New build (2010)
