

MatchSet™ Liner-Top Packer

HIGH-PERFORMANCE PACKER FOR RELIABLE LINER-TOP SEAL

OVERVIEW

The liner-top packer is a high-performance packer that is suited for most applications and sets by applying set-down weight. The packer provides an effective annular seal between the top of the liner and the parent casing, preventing formation breakdown, loss of cement slurry, and gas migration above the liner top during the life of the well.

The liner-top packer features hold-down slips, making it suitable for use in deviated or horizontal wells. Connection to accept an upper tieback receptacle is standard.

APPLICATIONS

- » Drilling liner
- » Production liner
- » Openhole horizontal wells
- » Unconventional completions

FEATURES AND BENEFITS

- » High-performance, compression-set liner-top packer
- » Provides effective annular seal at liner top
- » Prevents formation breakdown, loss of cement slurry, and gas migration
- » Integral body lock ring holds positive set in seal elements
- » Hold-down slips prevent light liners from moving
- » Configuration: with or without slips

MatchSet™ Liner-Top Packer Specifications

| Liner Size (in.) | Casing Size (in.) | Casing Weight (lb/ft) | Material |
