

# Illusion<sup>®</sup> Spire Dissolvable Frac Plug

**NEXT-GENERATION DISSOLVABLE FRAC PLUG,  
WHERE ACHIEVING MORE WITH LESS IS A REALITY  
THROUGH DESIGN**

## OVERVIEW

The Illusion<sup>®</sup> Spire dissolvable frac plug is the latest addition to the Halliburton Unconventional Completions portfolio. In this next-generation design, Halliburton has reduced the overall length and increased the internal diameter (ID), increasing efficiency in production. The Illusion Spire frac plug incorporates a new feature that includes an anti-preset feature. This added feature is offered without sacrificing the reliability and pressure-holding performance that operators have become accustomed to with Halliburton.

## FEATURES AND BENEFITS

- » Decreased dissolution time to return to full wellbore ID
- » Larger ID offers greater flowback and reliability
- » Anti-preset feature to ensure that plug reliably gets to setting depth
- » High-performance metal plug for demanding frac stimulations (10,000-psi rating)

HAL123814

## Illusion<sup>®</sup> Spire Dissolvable Frac Plug – Technical Specifications

Casing Size in. (cm)	Maximum Casing ID in. (cm)	Minimum Casing ID in. (cm)	Maximum Tool OD in. (cm)	Tool Length in. (cm)	Pressure Rating psi (MPa)
5 1/2 (13.97)	4.892 (12.43)	4.670 (11.86)	4.37 (11.10)	8.00 (20.32)	10,000 (68.95)
5 (12.70)	4.276 (10.86)	4.126 (10.48)	3.85 (9.78)	7.45 (18.92)	10,000 (68.95)
4 1/2 (11.43)	4.044 (10.27)	3.826 (9.72)	3.50 (8.89)	6.93 (17.60)	10,000 (68.95)
