HZ-20™ Crosslinker

HZ-20™ crosslinker is a colorless to slightly yellow liquid component of the H2Zero® gel sealant system.

**Applications**

HZ-20 crosslinker is a 33% active solution that is combined with HZ-10™ polymer to form the H2Zero system. This system is used as a gel sealant during conformance applications.

**Compatibilities**

HZ-20 crosslinker is incompatible with strong oxidizers.

**Benefits**

HZ-20 crosslinker can provide the following benefits:

- limited shipping restrictions
- organic crosslinking

HZ-20 crosslinker is not considered hazardous waste by the Environmental Protection Agency (EPA).
