HQ-2000™ Pump Trailer (Grizzly™)
Halliburton’s Rugged and Reliable Pump Trailer

Halliburton’s HQ-2000™ pump (Grizzly™) trailer is designed to achieve maximum reliability with minimal maintenance, even in extremely harsh oilfield environments. The HQ-2000 pump will deliver a maximum 2,000 hhp (1492 kW) while pumping all types of chemicals and proppants used for oilfield stimulation work.

**Specifications**

- Length: ....................... 36 ft (10.97 m)
- Width: ....................... 8 ft (2.44 m)
- Height: ....................... 13 ft, 6 in (4.11 m)
- Weight, Kingpin: ............... 25,000 lb (11,340 kg)
- Weight, Rear Axle: ............. 32,000 lb (14,515 kg)
- Weight, Total: ................. 57,000 lb (25,855 kg)

**Standard Equipment**

- Engine: Caterpillar 3512 C, 12-cylinder, turbocharged, 2,250 bhp (1678 kW) with hydraulic starter, hour meter, water filter, dry-type air filters, Full-Flo oil filters, and alternator
- Pump: HQ-2000™, quintuplex with 6.33 to 1 gear ratio, hard-surfaced plungers, 3-in. (76-mm) discharge flanges, curved inboard and outboard
- Fuel Capacity: 372 gal (1408 L)
- Transmission: Allison S9800 with ACE electronic shift controls
- Automatically Controlled Equipment: Remote-control system with 160 ft (48.8 m) of cable has complete display of all parameters required to monitor and control operation of unit. The system can be connected with up to 10 other units which can be controlled and monitored from one control panel

**Optional Equipment**

- Engine coolant preheater
- Spare can modules

For more information about how the HQ-2000™ pump trailer can help you stimulate your reservoir, contact your local Halliburton representative or email stimulation@halliburton.com.
